

Steps and Information Needed in Shipping Integration

1. For USPS

- USPS (User) ID
- Password
- Origin Zipcode

Please follow these steps in moving to production and also to obtain the USPS credentials:

1. Go to the [USPS Web Tools API](#) page and click "Register Now".
2. Fill out the "Registration for USPS Web Tools" form
3. You'll receive the "Confirmation" and, within a few minutes, an email with your USPS Username and Password.

Note: In ShipperHQ, under your USPS carrier in the "Account Settings", enter the credentials emailed to you by USPS.

2. For UPS

- UPS (User) ID
- Access Key
- Password
- Account Number
- Origin Zipcode
- Origin Country
- Origin State

Please follow these steps in moving to production and also to obtain the UPS credentials:

1. Go to the [UPS home page](#).
2. If this is your first time at UPS, you may need to select your geographic location. Otherwise, proceed to the next steps.
3. Click on the "New User" link located at the top of the page.
4. On the next page, click the button labeled "Open a Shipping Account"
5. On the next page, click on the "Register Now" link located to the right.
6. Complete your Registration Process

3. For FedEx

- Account Number
- Authentication Key
- Meter Number
- Password
- Origin Zipcode

Note: No moving to production needed
